

Testimonials

“We were very excited when we learned of TK Constructors, with the many different floorplans and options you had to choose from and the most affordable prices on the market.”

-Jerry & Family

“Your personnel responded to our needs from beginning to end, on time and in a most professional manner. We feel you were very true to your word and we received an excellent value”

-Steve & Christi

“We have been in our home a little over a year now and we love it. Your salesman was always honest, helpful and never misleading. We took one of the house plans that you have and with his help, made some changes until it was just what we wanted.”

-David & Nancy

“We found we saved right at \$30 per square foot by building with TK versus a general contractor. With your finance package, quality work and fast service, doing business with anybody else is not an option.”

-Jerry & Dottie

“When TK stated a date for start to finish, I could almost set my watch to how the house clicked together. My insurance agent informed me it would cost \$25,000 more for other builders to construct the same home. This made me feel very solid on my TK home investment.”

-Dave

“Our experience with TK was a good one. We have been in our house for eight months and love it! We have a beautiful home that appraised approximately \$40,000 above our purchase price. The appraiser suggested we sell this one for profit and build ourselves another! We would recommend TK to anyone looking for a new home.”

-Allen & Kelly

“We were very impressed with TK Constructors in every aspect. Everyone we personally had to deal with was both helpful and very pleasant. They were done with the final construction of our home right on time, if not a few days sooner. We just love our new home and we are still amazed how we managed to have such a well-built beautiful home at such a reasonable price.”

-Brian & Marni

“With the money we saved during construction, we were able to add more square footage.”

-John & Allison
